# Do You Make These Mistakes in English?

Sherwin Cody's remarkable invention has enabled more than 70,000 people to correct their mistakes in English. Only 15 minutes a day required to improve your speech and writing

**M**ANY persons say "Did you hear from him today?" They should say "Have you heard from him today?" Some spell calendar "calender" or "calander." Still others say "between you and I" instead of "between you and me." It is astonishing how often "who" is used for "whom," and how frequently the simplest words are mispronounced. Few know whether to spell certain words with one or two "c's" or "m's" or "r's," or with "ie" or "ei," and when to use commas in order to make their meaning absolutely clear. Most persons use only common words—colorless, flat, ordinary. Their speech and their letters are lifeless, monotonous, humdrum.

## Why Most Persons Make Mistakes

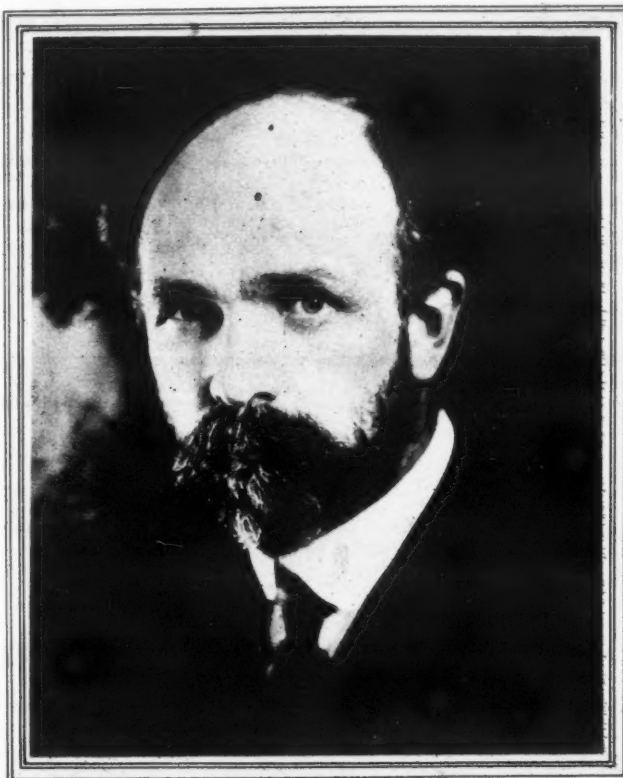

What is the reason so many of us are deficient in the use of English and find our careers stunted in consequence? Why is it some can not spell correctly and others can not punctuate? Why do so many find themselves at a loss for words to express their meaning adequately? The reason for the deficiency is clear. Sherwin Cody discovered it in scientific tests, which he gave thousands of times. *Most persons do not write and speak good English simply because they never formed the habit of doing so.*

## What Cody Did at Gary

The formation of any habit comes only from constant practice. Shakespeare, you may be sure, never studied rules. No one who writes and speaks correctly thinks of rules when he is doing so.

Here is our mother-tongue, a language that has built up our civilization, and without which we should all still be muttering savages! Yet our schools, by wrong methods, have made it a study to be avoided—the hardest of tasks instead of the most fascinating of games! For years it has been a crying disgrace.

In that point lies the real difference between Sherwin Cody and the schools! Here is an illustration: Some years ago Mr. Cody was invited by William Wirt, author of the famous Gary System of Education, to teach English to all upper-grade pupils in Gary, Indiana. By means of unique practice exercises Mr. Cody secured more improvement in these pupils in five weeks than previously had been obtained by similar pupils in two years under old methods. There was no guesswork about these results. They were proved by scientific comparisons. Amazing as this improvement was, more interesting still was the fact that the children

SHERWIN CODY

were "wild" about the study. It was like playing a game!

## 100% Self-Correcting Device

The basic principle of Mr. Cody's new method is habit-forming. Any one can learn to write and speak correctly by constantly using the correct forms. But how is one to know in each case what is correct? Mr. Cody solves this problem in a simple, unique, sensible way.

Suppose he himself were standing forever at your elbow. Every time you mispronounced or misspelled a word, every time you violated correct grammatical usage, every time you used the wrong word to express what you meant, suppose you could hear him whisper: "That is wrong, it should be thus and so." In a short time you would habitually use the correct form and the right words in speaking and writing.

If you continued to make the same mistakes over and over again, each time patiently he would tell you what was right. He would, as it were, be an everlasting mentor beside you—a mentor who would not laugh at you, but who would, on the contrary, support and help you. The 100% Self-Correcting Device does exactly this thing. It is Mr. Cody's silent voice behind you, ready to speak out whenever you commit an error. It finds your mistakes and concentrates on them. You do not need to learn anything you already know. There are no rules to memorize.

## Only 15 Minutes a Day

Nor is there very much to learn. In Mr. Cody's years of experimenting he brought to light some highly astonishing facts about English.

For instance, statistics show that a list of sixty-nine words (with their repetitions) make up more than

half of all our speech and letter writing. Obviously, if one could learn to spell, use, and pronounce these words correctly, one would go far toward eliminating incorrect spelling and pronunciation.

Similarly, Mr. Cody proved that there were no more than one dozen fundamental principles of punctuation. If we mastered these principles there would be no bugbear of punctuation to handicap us in our writing.

Finally, he discovered that twenty-five typical errors in grammar constitute nine-tenths of our everyday mistakes. When one has learned to avoid these twenty-five pitfalls, how readily one can obtain that facility of speech which denotes the person of breeding and education!

When the study of English is made so simple, it becomes clear that progress can be made in a very short time. *No more than fifteen minutes a day are required.* Fifteen minutes, not of study, but of fascinating practice! Mr. Cody's students do their work in any spare moment they can snatch. They do it riding to work or at home. They take fifteen minutes from the time usually spent in profitless reading or amusement. The results really are phenomenal.

Sherwin Cody has placed an excellent command of the English language within the grasp of every one. Those who take advantage of his method gain something so priceless that it can not be measured in terms of money. They gain a trade-mark of breeding that can not be erased as long as they live. They gain a facility in speech that marks them as educated people in whatever society they find themselves. They gain the self-confidence and self-respect which this ability inspires. As for material reward, certainly the importance of good English in the race for success can not be overestimated. Surely, no one can advance far without it.

## Free—Book on English

It is impossible, in this brief review, to give more than a suggestion of the range of subjects covered by Mr. Cody's new method and of what his practice exercises consist. But those who are interested can find a detailed description in a fascinating little book called "How You Can Master Good English—in 15 Minutes a Day." This is published by the Sherwin Cody School of English in Rochester. It can be had by any one, free, upon request. There is no obligation involved in writing for it. The book is more than a prospectus. Unquestionably it tells one of the most interesting stories about education in English that ever has been written.

If you are interested in learning more in detail of what Sherwin Cody can do for you, send for the book, "How You Can Master Good English—in 15 Minutes a Day."

Merely mail the coupon, a letter, or postal card. SHERWIN CODY SCHOOL OF ENGLISH, 7412 Searle Building, Rochester, N. Y.

# 10,000 Homes Invited To Test This Remarkable New Ultra-Violet Lamp That Gives DOUBLE Radiation!

## Use Ten Days Without Charge

Now 10,000 homes all over America are going to have the privilege of using for 10 days—without the slightest restriction—this amazing new Ultra-Violet lamp which gives double radiation! The manufacturer has decided to distribute these extraordinary new twin-arc lamps to all parts of the United States—to the most critical families—in order to demonstrate that no carbon-arc ultra-violet lamp at five times the price can excel its perfection—or give a more thorough radiation of health-building sunshine! If you want your home included in this great FREE test, merely mail the certificate at the bottom of the page for details of this most unusual offer.

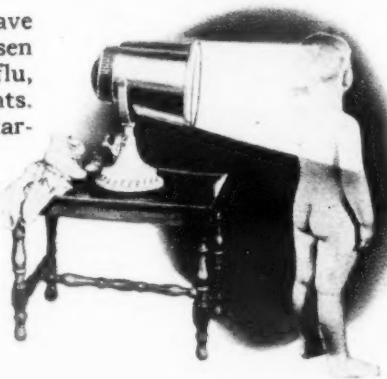

## Build Resistance Against Colds and Flu With Glorious Ultra-Violet Sunshine!

THIS year don't have constant colds—lessen the risk of dangerous flu, grippe and serious ailments. Do away with sunlight starvation—the cause of lowered vitality, lack of resistance to infectious diseases, nervousness and chronic fatigue. In only five minutes a day, while you rest or read, you can build new vitality, new health—with sunshine in your own home.

### Nature's Tonic

Ultra-Violet sunshine is today considered an absolute necessity for everyone during the long winter months. These restful potent rays will bring you a rich, healthy tan. No child should be denied Ultra-Violet radiation. Aids in the formation of strong bones and teeth, helps to protect against infectious diseases. Prescribed by your doctor for many ailments. Marvelous for "shut-ins," old people and convalescents.

And now we are going to let you use in your own home our amazing new *Twin-Arc* Ultra-Violet Lamp—the lamp that is priced so low as to be hardly believable! We want you to see for yourself how wonderfully efficient this

new lamp is—how beautifully it is built, how simple it is to operate. And, too, we want you to experience the marvelous relaxation and luxurious comfort of *genuine* Ultra-Violet sunshine.

The most exacting laboratory tests have proved the new Health Developer Twin-Arc Lamp equal in efficiency to any carbon-arc lamp, operating from a home lighting circuit, *regardless of price*. Yet it is priced almost un-

believably low—so low that now every family can afford this great health-builder. Produced by one of the world's foremost builders of physical therapy apparatus for physicians and hospitals. Made of the finest materials to give long service.

### Special Unique Feature

The most remarkable feature of this new lamp is its amazing new twin-arc construction. Instead of using only two carbons this lamp uses four—it has twin arcs instead of a single arc. And, too, the carbons used are large size—most inexpensive lamps use a

smaller carbon which means that treatments take longer and are not so beneficial. The Health Developer Twin-Arc Lamp produces genuine ultra-violet infra-red and visible rays, as in warm June sunlight. It uses no bulbs—this is a carbon-arc lamp—not a bulb heat lamp. Easy to operate—just pull a cord and treatment is ready.

Our free test offer is for a short time only—send at once for full particulars of this most unique offer. Mail the FREE test certificate below right away for complete details of this very liberal offer.

### 4 CARBONS Radiating At Once

More thorough radiation of health-giving sunshine! In 5 minutes you receive the same benefit as in 20 minutes with a less efficient lamp. A lamp with small carbons is a poor investment—treatments take longer—time is wasted—children grow restless. Why purchase a lamp with single arc or small carbons when you can secure this new Twin-Arc lamp at its startling low price!

### National Health Appliance Corp.

1676 N. Claremont Ave.,  
Dept. W-20, Chicago

### FREE Book

If you tire easily, if you catch cold readily, by all means send for this authoritative FREE Booklet which tells exactly how and why Ultra-Violet Sunshine is so beneficial. Mail the coupon for your copy.

### DEALERS:

This is the most outstanding value in the Ultra-Violet field—it is the selling sensation of the year. Vigorously advertised in national magazines. Write or wire for our special offer to new dealers.

National Health Appliance Corp.,  
Dept. W-20, 1676 N. Claremont Ave.,  
Chicago, Ill.

### FREE Test Certificate

I am interested in your most unusual offer of 10 days' FREE use of the Health Developer Ultra-Violet Lamp. Please send details and your authoritative booklet.

Unite the Cloudlike Tulle Ruffles to the Soft Beige Lace of This Charming Boué Soeurs Negligée. Clusters of French Flowers in Piquant Colors Glow Against the Beige Background.  
(Lazarnick.)

## Christmas Gifts Calculated to Delight the Feminine Heart

By Grace Wiley

Time and place influence the fashions in negligées almost as sharply as they mark differences in clothes for outdoor wear. The lovely feminine fluffiness of Boué Soeurs negligée in lace and tulle has no place outside the boudoir, but the stately hostess gown is thoroughly at home at the tea table, and Vionnet's pajamas might quite properly be worn down to dinner. But no matter what may be the ultimate purpose of the negligée it is always a welcome Christmas gift.

### THE HOSTESS GOWN IN ITS STATELIEST INTERPRETATION

Combines Rayon, Transparent Velvet, Trailing Sleeves of Black Chiffon and a Cape Bertha of Real Lace. From Kurzman. (Lumiere.)

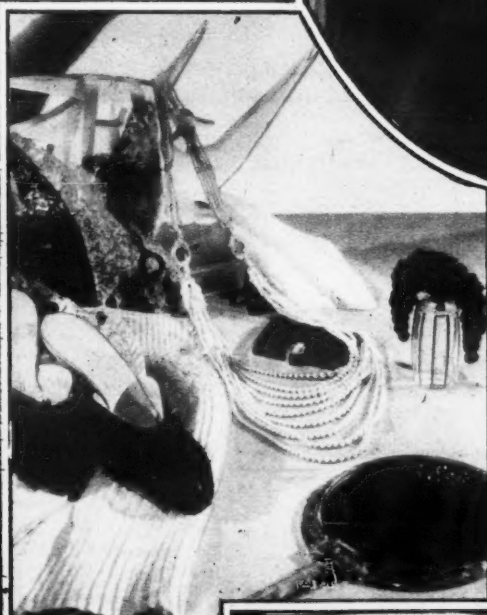

### THE PAJAMA COSTUME TURNS NOTABLY FEMININE.

Vionnet Uses Pleating to Transform the Trousers Into the Draped Long Lines of the New Mode. Both Velvet Blouse and Chiffon Trousers Are in Peach Color. Imported by Jay-Thorp.

(Lincoln McCabe.)

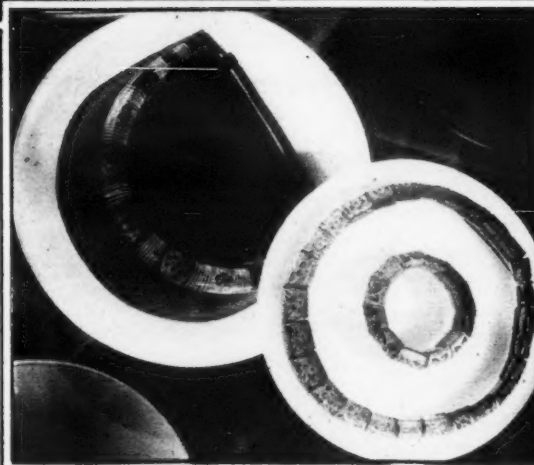

**ELABORATE INSERTS OF DUSKY ALENCON LACE**  
on Shell Satin Combine to Make Utterly Feminine Night Pajamas. Shown by James McCutcheon.  
(New York Times Studios.)

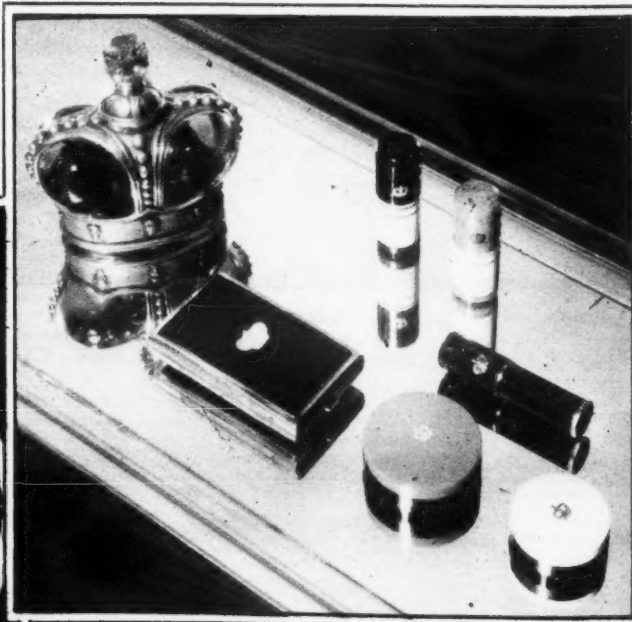

### CHRISTMAS GIFTS

Consist of an Evening Combination in Alençon Lace and Chine, Red Suède Mules With Gold Piping, Draped Pearls With Rhinestone Links, Black Enamel Vanity With Marcasite Clasp, Boudoir Bottle With Grape Stopper, Mirror of Lalique Glass, Lalique Glass Centrepiece of Birds. Compiled by Saks-Fifth Avenue.  
(Gabor Eder.)

### A NEW JEWELRY ENSEMBLE FROM PATOU.

Bracelet, Necklace and Bag Trimming in Engraved Half-Tube Beads of Composition Material. The Set Shown Is in Dark Dahlia, Imported by Stewart & Co.  
(Sara Parsons.)

### AN OLD FAMILY CREST

Is the Decorative Motif of the Gold-Encrusted Containers in Which Prince Matchabelli Perfumes and Cosmetics Are Presented. Illustrated Here Are the Duchess of York Perfume, the Powder and Rouge Compact, the Cream Rouge, the Eye Shadow and Lip Stick Containers. From Bergdorf-Goodman.

AN UNUSUAL ENSEMBLE FOR PALM BEACH Has Full Length Coat of Gray and White Ratiné, Worn Over a Matching Skirt and Crêpe Blouse. Designed by Bloom for Peck & Peck.

(Fab Studios.)

## The Palm Beach Wardrobe Begins With a Light Wrap

CAPEs ARE OF GROWING IMPORTANCE, Which Is Reason Enough for This William Bloom Suit in Gray-Blue Ostrich Feather Tweed to Adopt Its Diminutive Shoulder Cape. Note That the Jacket Is Double Breasted as Well. Shown by Stern Brothers. (New York Times Studios.)

A NEW COAT LENGTH FOR THE LONGER SKIRTS. Omar Kiam Makes a Slightly Fitted Coat in Brown Wool, With Frock and Tuxedo Collar of White Silk Pique. The Belt Is Noteworthy. Shown by Jay-Thorpe. (The New York Times Studios.)

At Left—THE FLARED CAPE MEETS WITH PARISIAN FAVOR. This Model From Champ-communal Is in Gray Cloth and Is Worn Over a Little Tailored Suit So That the Wearer Is Prepared for All Degrees of Temperature.

RED CHECK CHINA SILK Makes an Interesting Little Suit With Eton Jacket and Embroidered Blouse. From Henri Bendel. (Fab Studios.)

EMBROIDERY IN BRIGHT WOOLS Is Smart on This Bloom Ensemble of White Ratiné. Matching Shorts Are Also Embroidered in the Gay Colors. Shown by Abercrombie & Fitch. (New York Times Studios.)

At Left—THE SPECTATOR SHOE FOR PALM BEACH Is the Prince of Wales Tie With the High Continental Heel. In White Buck, With White Lizard Inserts. Delman Shoe Company.

# "I Never Expected A Raise So Soon"

## "I've Increased Your Salary Because You're Worth It"

"YOU have been with us about a month and you are by far the most competent secretary I ever had. Six weeks ago you were only a telephone girl—I can't understand how you gained your present speed and accuracy in only 6 weeks. Why, a great many of our stenographers have studied shorthand for ten months and they still make many errors."

"That isn't their fault, Mr. Fisher. Old-fashioned shorthand requires months of hard study and practice and even when it is mastered it is difficult to read. But Speedwriting is very easy. I—"

"Speedwriting? What's that?"

For answer the girl handed the big business man her notebook.

"Why, this is remarkable, Miss Martin. It's in simple A B C's!"

"Yes, surely. That's how I learned it so quickly. *Anyone* can learn Speedwriting. There are only a few easy rules. There are no hooks or curves; every 'character' you use is a letter you already know—one that your hand needs no special training to make."

"Well, that's the most remarkable thing I ever heard of. I could use that myself at board meetings and a dozen other places. You can write it rapidly, too!"

"One boy I know, who studied Speedwriting in his own home, took court testimony at the rate of 106 words a minute after only 15 hours of study."

"Miss Martin, where can I get some literature on Speedwriting? I really believe I'll take it up myself!"

Two months later Mr. Fisher and all his stenographers were *Speedwriters*!

### You Can Do It, Too

Tens of thousands have been freed from the drudgery of the old-fashioned methods of learning and writing shorthand by this marvelous new system, which may be written with a pencil or on a typewriter; can be learned at home in a third the time needed to master any other system; is more accurate, and can be written with amazing rapidity.

Mail the coupon tonight. It will bring you an illustrated book full of examples and stories of successful Speedwriters all over the world. No matter *what* your need for shorthand may be—you can fill that need *better* with Speedwriting.

### Read What Speedwriters Say

I am so happy now that I have finished my course in Speedwriting that I simply must tell you about it. In all I devoted to the study just 40 hours. My speed completing half the course was 104 words a minute. Now it is 120. I find Speedwriting so simple that I am sure a child could learn it easily.

Mrs. Anna M. Stanley, Atlantic Highlands, N. J.

If I could talk personally to each one who contemplates taking up the study of shorthand, I am sure that I could convince them of the utter futility of spending months and years practicing arbitrary symbols when the same work can be done so much more efficiently with the A B C's. I speak from experience. I have tried three of the so-called standard systems and not one of them gave me the service I sought.

C. W. Hammond, New York City.

I had used another System of Shorthand for two years, but my work seemed difficult and never satisfied me. When I changed to Speedwriting the former difficulties disappeared. Through Speedwriting I have secured a better position.

Grace Mallon, Brooklyn, N. Y.
